70g (1/2 cups) cornflour  
1 x2L ctn vanilla ice-cream  
200g Nestle white chocolate  
90g (1/3 cup) hundreds and thousands

## Method:

1.Fill a small jug with hot water. Place the cornflour in a bowl. Dip a melon baller in the hot water and use a tea towel to quickly dry. Use the melon baller to scoop out a ball of ice-cream. Place the ball in the cornflour and toss to coat. Use your hands to quickly roll the ball until smooth. Place the ball on a baking tray. Cover with plastic wrap and place in the freezer. Repeat with the remaining cornflour and ice-cream to make 20 balls. Freeze for 2 hours or until firm.

2.Place the chocolate melts in a small heatproof, microwave-safe bowl. Heat, uncovered, on medium/500 watts/50% for 1 minute. Use a clean, dry metal spoon to stir the chocolate. Heat, uncovered, on medium/500 watts/50% for a further minute until almost melted. Stir until smooth. Set aside for 10 minutes to cool slightly.

3. Use a fork to dip 1 ice-cream ball into the melted chocolate to evenly coat. Place on a clean baking tray and sprinkle with hundreds and thousands. Repeat with the remaining ice-cream balls, melted chocolate and hundreds and thousands. Place in an airtight container in the freezer for 30 minutes or until firm.
